PARKEVILLE HYDROPATHIC INSTITUTE.

A meeting of the Board of Managers of the Parkeville Hydropathic Institute, held 15th month 15th, 1850. Joseph A. Weder, M. D., was unanimously elected.

Resident Physician in the place of Dr. Weder, resigned. Having made various improvements, this Institute is now prepared to receive an additional number of patients; and from Dr. Weder's well-known skill and practical experience in Europe, and his long residence in this country, and particularly in the city of Philadelphia, (where he has had many patients,) the Managers believe the afflicted will find him an able and an attentive physician.

The domestic department being under the charge of a Steward and Matron, every attention will be devoted to the patients whenever time may be necessary.

Application for admission to be made to
SAMUEL WEBB, Secretary.

Office No. 58 South Fourth street, residence No. 15 Logan square, Philadelphia.

General Description of the Parkeville Hydropathic Institute.

The main building is three stories high, standing back from the street about one hundred feet, with a semi-circular grass plot in front, and a carriage drive leading to the rear.

The grounds around the house are tastefully laid out with walks and planted with trees, shrubs, &c. On the left of the entrance to the building is a cottage containing four rooms, used by male patients as a bathing house, with every convenience for "packing," bathing, &c.; on the right of the entrance, about two hundred feet distant, stands a similar cottage, used by the ladies for similar purposes.

In the rear of the Institute, at the distance of one hundred feet, are three other cottages, each containing four rooms, and each with a bath, and a hydrant at the door; the other two are occupied by the servants.

The hydrant water is introduced into these cottages as well as into the main building, and all the waste water carried off by drains under ground.

THE WATER WORKS.

Consist of a circular stone building, standing on the brow of a hill, surrounded by a low wall, and containing the four hundred barrels, brought from a never-failing spring of pure cold water in the side of the hill, by a "hydraulic ram," a self-acting machine of cast iron, that is kept constantly going, night and day, by the descent of the water from the spring.

The surplus water is carried from the reservoir to a fountain in the water-works yard, surrounded by a low wall, and from thence it is carried to the main building, by a pipe leading to the water works.

There is a circular room containing the double bath, which is a stream falling from a height of about thirty feet, and can be varied in size from half an inch to an inch and a half in diameter, by a sliding door, which is a drawing room, with marble tables, &c.; the rising douche (for the cure of piles, &c.) is one of the most complete contrivances of the kind, being entirely under the control of the patient, using the same.

There are many other appliances, which can be better understood by a personal examination.

NEW PICTORIAL WORKS.

Just published by R. SEARS, and for sale at No. 128 Nassau street, New York.

AMERICAN ART BOOKS FOR 1851.—Agents are wanted to circulate the following new and beautiful works, (retail price, \$2 50 per vol.) A new and complete PICTORIAL HISTORY OF CHINA AND INDIA;

with a descriptive account of those countries and their inhabitants, from the earliest period of authentic history to the present time. In which the editor has treated not only of the historical events, but also of the manners, customs, religion, literature, and domestic habits of the people of those immense empires.

The embellishments are about two hundred, and of the first order, illustrating whatever is peculiar to the inhabitants, regarding their dress, domestic occupations, their mode of agriculture, commercial pursuits, arts, &c. They are accurate, and each one has been made expressly for the work.

The volume forms a large octavo, containing between five and six hundred pages, printed in the best style, and on good substantial white paper. It is furnished to agents, not a city or town in the United States, or to the purchaser who may prefer, at a very liberal discount, when quantities of not less than twenty copies are ordered at one time.

THRILLING INCIDENTS OF THE WARS OF THE UNITED STATES;

comprising the most striking and remarkable events of the Revolution, the French war, the Tripolitan war, the Mexican war, the second war with Great Britain, and the Mexican war; with three hundred engravings. Retail price, \$2 50 per volume. Orders respectfully solicited.

REARS' PICTORIAL FAMILY PUBLICATIONS

are decidedly the best books that agents can possibly employ their time in supplying to the people of the United States. They are valuable for reference, and should be possessed by every family in this great republic. There is not a city or town in the United States, or to the purchaser who may prefer, at a very liberal discount, when quantities of not less than twenty copies are ordered at one time.

These works are indispensable. They are adapted to the literary wants of the Christian, the patriot, the statesman, and the domestic circle, got up in a superior style of art and workmanship, and are not only such books as will sell, but are such as an agent of good principle will feel free to recommend, and willing to see the purchaser again after they have been bought.

OUR PLAN.—The plan the publisher has so successfully carried out for several years, is the obtaining responsibility as agents, who are well known in their own counties, towns, and villages, and have true disposition to circulate good and instructive books among their neighbors.

Persons who wish to be enabled to embark in the enterprise will risk little in sending \$25 or \$50, for which we will receive an assortment as he may direct, at the whole sale price.

Enterprising and active men of respectability and good address, would do well to engage in the sale of the above volumes; and all postmasters, clergymen, book peddlars, and newspaper agents, are respectfully requested to act as our agents. A handsome remuneration allowed to all who engage in their sale. For particulars address, post paid, to R. E. SEARS, 128 Nassau street, N. Y.

To publishers of newspapers throughout the United States: Newspapers copying this advertisement entire, without any alteration or abridgment, (including this notice,) and giving it in full, shall receive a copy of our \$25 or \$50 of 25 copies, subject to their choice, by sending direct to the publisher.

The Baltimore and Philadelphia Steamboat Company (ERICSSON LINE)

Have resumed their operations for the year with increased means of accommodation, and with the most regular and expeditious manner, and at their former material reduced prices, being, on dry goods, 25 to 50 cents per 100 pounds, and on bulk, but half the price charged by other lines.

Persons wishing to avail themselves of the facilities and moderate prices of the line, are advised to give explicit and positive directions for sending their goods to the Ericsson line, and they should be particular to possess themselves of the receipts which are invariably given for their goods, and to keep the same, as they will be required to produce them in order to prove a protection against the double rates exacted by other lines, who have no published rates.

Persons desiring to send their goods to any other place beyond Baltimore, forwarded promptly on the day of their arrival, with every care and attention, free of all charge whatever for this service, in the shape of commissions or otherwise.

NEW YORK.—Goods shipped from New York, or other places eastward of that city, should be distinctly consigned to the Ericsson line, Philadelphia, to insure their conveyance by this line.

Freight to or from Baltimore, as above, 10 cents per 100 pounds. Coarse freight to and from Baltimore, as above, 5 cents per 100 pounds.

The established character and known reputation of this company is an ample guarantee to those disposed to confide their property to the care of the company.
